

# Identifying Risks

The project team identifies individual project risks as well as overall project risk. This process results in the risk register and risk report.

# Documentation Analysis

- Project scope
- Project plans
- Assumptions
- Previous project records
- Supplier contracts

# Brainstorming

## **State Objectives**

Define the problem and the goal.

## **Generate Ideas**

Looking for a large number of ideas from everyone.

## **No Idea is a Bad Idea**

Create an environment where everyone shares.

# S.W.O.T. ANALYSIS

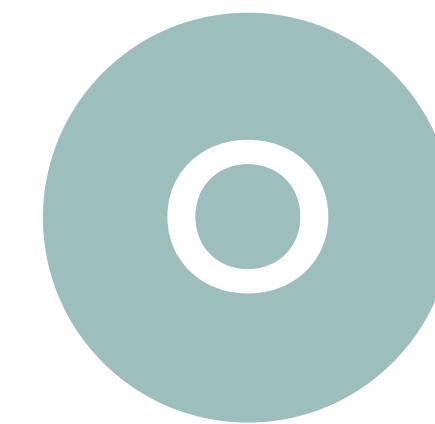

## STRENGTHS

Company strengths.

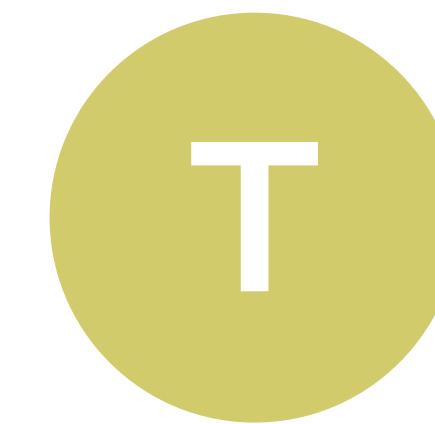

## WEAKNESSES

Company weaknesses.

## OPPORTUNITIES

Opportunities for the company or project.

## THREATS

Threats to the organization or the project.

# Interviews

Seek input from subject matter experts, stakeholders and trusted resources.

# Delphi Technique

## **A n o n y m o u s   I n p u t**

Subject matter experts or stakeholders offer anonymous input to risks without influence from one another.

## **R a n k i n g   o f   F e e d b a c k**

Participants receive responses then rank or vote and offer feedback.

## **I t e r a t e   U n t i l   C o n s e n s u s**

Several rounds of feedback until experts reach consensus on risks.
